Music in Motion Recital 2022

Important Notes on HAIR, MAKE-UP and SHOES:

HAIR

- Items required to make a Ballet Bun include: small bobby pins, large hair pins (if hair is longer), multiple elastics in your haircolor, gel, hairspray and a hairnet. Optional are “bun formers” or “donuts.” You can purchase all of these items at your local drugstore and also find tutorials online.
- To make a ballet bun or “sleek” ponytail – first wet and run gel through the hair. Use a fine tooth comb or brush to brush hair into a ponytail and secure with elastic. Finish with hairspray to flatten wispsies.
- Students with braids may pull their hair back securely into a ponytail that is low OR mid-height and can be finished by wrapping braids around elastic. For a bun – use large hair-pins.
- Students with shorter hair – we ideally prefer an attempt at a ponytail – using lots of gel and bobby-pins to pin up the back of the hair. If hair is SUPER short, your regular hairstyle with gel or a haircolored headband/elastic is fine. Please reach out for details!

MAKE-UP

- Light make-up for Photo Days such as blush, mascara, lip-gloss (older students may wish to do more make-up) These are close up photos and well lit, so a natural look is better!
- NO make-up is needed for dress rehearsal.
- Make-Up, including foundation, for ALL students is required for Show Day. Features need to be defined so that faces stand out in videos and pictures underneath of the harsh stage lights.

SHOES

- Double check the color and style of your students shoes. I have seen a few black pairs of ballet, jazz and tap shoes floating around in classes! I will try to reach out to contact you.
- If you need new shoes – NOW is a great time to buy! Please contact us – we have a NEW shoe wholesaler and should be able to get less expensive than retail shoes here before the show!

PLEASE NOTE: The hairstyle in the photo is from a STOCK photo of the costume. Please READ the hairstyle description to ensure the correct hair as not all photos follow hairstyle exactly. (most photos do show proper accessory placement however!!)
